ALBERTA'S FIRST NEWSPAPER

Homer Beep, the great American patriot, has been having trouble with his wife. It appears that Mrs. Beep serves meat on meatless Tuesday, and fowl on chicken-less Thursday. In an effort to save food for Europe Homer has his helpmeet throw it out. See Galileo's column on Page 13 today.

Threatened Rail Strike Averted

Dispute Settled on Basis Outlined by Conciliators

MONTREAL, Oct. 25. — (CP) — A railways-unions dispute, threatening a tie-up of railway services in Canada, has been settled it was announced here today.

THE FOLLOWING joint statement was issued just before noon following a morning meeting between representatives of the parties concerned.

"The question of increased vacation pay for the employees of the **THE UNIONS** originally had asked for 14 days vacation with pay.

Under the original arrangements between the companies and the unions, employees were to receive 12 days with pay. The companies, however, who did get holidays under the old arrangement, however, employees receiving vacations were not to be adversely affected. Workers now receive 14 days with pay.

unions, many classes of employees paid holiday, will receive paid vacations, ranging from one to four weeks.

Experts Open Probe On U. S. Air Disaster

TODAY'S announcement came after a week of negotiations which followed an announcement by the unions that a strike would begin

The conciliation board's recommendations came after a hearing

that ended last June 10. They were accepted by the unions but rejected by the companies.

Briefly, the board recommended to their individual abilities.

...now being served.

There's something fascinating about a symphony orchestra in action—the rhythmic action of the violins in unison, the broad sweep of the cellists' arms as they bow haunting melodies. Few spectacles thrill as does such an orchestra during a performance. But the orchestra also is interesting during rehearsal periods, when the foundation of the public appearance is laid. Sometimes it looks very simple during a performance. But it is not as easy as it looks. Hours of "wood-shedding" are required. Much time must be spent re-orchestrating efforts so that the performance will go with a minimum of effort on the part of those concerned. Above are some scenes taken during a recent rehearsal of the Edmonton Philharmonic Orchestra, in preparation for the opening concert of the season, which takes place at the Strand Theatre, commencing at 8 p.m. Sunday. At the upper left is Harcourt Smith, a Calgarian, who is attending the University of Alberta and who is one of the mainstays of the cello section. Next are two trumpeters, Clifford Wright, left and George Nicol, then just much of the "oomph" and "punch" into the performance. At the upper right is George McBride of the double bass section, one of this city's most experienced and expert musicians. At the lower left are two members of the first violin section, Elizabeth Moore, left and Jennie Salamandick, who provide much sweet music. At the lower right are the three French horns, George Johnson, Adam Dobie and Douglas Williamson. They supply a lot of the romantic tone to the music, such as in the opening of the second movement of Tchaikovsky's Fifth Symphony, the great Andante Cantabile. In the centre is Abe Franklin, the conductor, who thinks nothing of rolling up his shirt sleeves to polish up some difficult passages. When this picture was taken, he was directing Mendelssohn's Violin Concerto in E Minor, which will be featured on tomorrow night's program.

Major and Minor Notes

By John Oliver

AT THE Strand theatre tomorrow night, the Edmonton Philharmonic Orchestra, will open its fourth season. As has been the case in the previous three seasons, the orchestra will be on the podium at 8 o'clock. The soloist will be Betty Jean.

Hagen, Edmonton violinist now studying in Calgary. The orchestra, with a few additions and substitutions, will be the same as last season. Miss Hagen will play Mendelssohn's Violin Concerto in E Minor, with orchestral accompaniment. Other pieces of the program are Roman Carnival Overture, Berlioz; Les Preludes, Liszt; Dance of the Hours from "La Gioconda," Ponchielli and the overture to Herold's opera "Zampa." Thus, it will be noted, all these works are new to the orchestra's repertoire. It is one of the most difficult programs the organization has attempted and more particularly the Berlioz and Liszt compositions, which abound in technical and interpretive pitfalls.

Much interest will centre on Miss Hagen's appearance. An Edmonton girl, she has done most of her studying here, with some time spent in Chicago and lately in Calgary. She gave her debut concert at the Masonic Temple a few seasons ago, and since that time, she has appeared on many concert and radio programs. Only recently she gave a recital in Calgary, in which she scored an outstanding triumph, with the Schubert Concerto for Violin and Piano. A former member of the first violin section of the Edmonton Philharmonic, she will be returning to play among, and before, friends, and it is certain Mr. Franklin and his associates, will spare no effort to insure the success of the event.

JOHN OLIVER

It was a happy thought that prompted selection by Miss Hagen, of the Mendelssohn Concerto. The date of the concert is close to the one-hundredth anniversary of the death of the great composer, and the performance therefore, may be interpreted as a commemorative tribute to him. Mendelssohn died Nov. 4, 1847, just two years and a half after completion of the Concerto. The 101 years that have passed since it was finished have not in any way dimmed its popularity. It won instant favor at its first performance and even today it is one of the most frequently played of all violin works in this form, and with the listening public, it is a perennial, enduring, ever-welcome favorite. Mendelssohn's only violin concerto, it was composed Sept. 16, 1844 at Godesen, near Frankfurt, where Mendelssohn spent the summer, "eating and sleeping, without

dress coat, without piano, without cards, without a carriage and horse, but with slippers, with wild flowers, with music paper and slippers, with Cecile and the children." The first performance took place at a Leipzig Gewandhaus concert, March 13, 1845. The soloist was Ferdinand David, one of the most prominent and influential violinists of his time and a close friend of the composer, who had discussed the concerto almost casually by phrase with Mendelssohn as they worked on it progressed. The great composer was not present at the premiere. His health had begun to fail and he resolved to remain in Frankfurt a year. It was the beginning of the end of a life, which though short, had been productive of an infinite amount of beautiful music. In the violin concerto, Mendelssohn's own insight of his inventive powers, and superlative musical craftsmanship.

YARA BERNETTE, outstanding Brazilian pianist, will play at McHugh United Church on Nov. 3. Did you ever encounter that intriguing name of Yara before? It often happens when an attractive name meets the eye for the first time, one wonders what it means, where it came from, or how it happened to be given to a particular person.

In case such thoughts floated through the heads of readers of this column, it may be mentioned that she was named Yara, after Yara, Goddess of the Rivers, a beneficent deity who, according to Indian legend, brings good fortune to anyone who sees her. According to all reports, the namesake, like the goddess, is endowed with a plenitude of beauty. The home of the goddess in Brazil is the "Victoria Regia" or mammoth tropical flower, which Yara, as a singing goddess and, according to the legend, on bright moonlight nights, one may hear her clear, sweet music. As the year of the "Victoria Regia" slowly unfolds, she rises from her flower couch to greet the prayers of any Yaras who may be watching.

One of the most popular legends among Brazilians, it has been said as a belief by Francisco Mignone, and a piano arrangement is in the repertoire of Yara Bernette whose playing is said to "set the piano alight." Before is the program Miss Bernette will play on her appearance at McHugh United Church: Praeludium and Gavotte in Major, Albeniz; Allegro in D Major, Soler; Sonata in E Flat Major, Chopin; No. 3, Beethoven; a Chopin group; Nocturne in C Minor, Mazurka in A Minor and Etude in A Minor, Opus 25, No. 11. Two Preludes, Bachman; nocturne, Albeniz; Etude in the Water, Debussy and two compositions by Villa-Lobos. First Light in the Black Cathedral, First Dance of the White Indian.

FOR THE LAST two years, members of the Rotary Club have provided one of the most attractive features of the Christmas season by holding a Christmas Carol Festival in McHugh United Church. This year the group will be continued and the date is Dec. 16-19. Already the Rotarians are well advanced with

Edmonton Has Another Year of Great Activity

(Continued from Preceding Page)

REVENUE of \$22,456.00 the expenditures for operation and maintenance has increased by \$207,032.00, mainly due to increased labor costs caused by the 40 hour week being instituted early in the period, coupled with the ever increasing cost of materials; also by the fact that better maintenance was maintained as indicated by the total mileage operated—3,235,408 miles, an increase for the period of 872,073 miles.

As a result of the cuts noted above and in view of larger expected deficits in the future, Council authorized a new fare structure to take effect on September 1st, 1947, by which it is expected the Edmonton Transit System's 1948 revenue will be increased by in the order of \$270,000. The fare increase has been collected if existing fares had been continued. Such increased revenue will be required to meet rising costs in the next few years.

The programme of gradual conversion of the system has been continued. New steel poles and overhead for trolley car operation were installed on Jasper Avenue West and North on 124th Street to 108th Avenue.

New equipment delivered during the period consisted of 22 new trolley coaches (44 passenger) and 7 gas buses (36 passenger). As of August 31st, 1947 the Department was operating 77 street cars, 22 trolley coaches and 42 gas buses.

The usual amount of tie and pole replacement and ballasting of open track has been carried out and several curved sections of steel replaced, also a section of the High Level Bridge was re-climbed.

The programme of re-building, overhauling, and painting of passenger cars was continued during the period with the fact that the Rolling Stock and Equipment generally are in very good condition.

Telephone Department

The gross revenue from all classes of services for the nine month period amounted to \$772,802.00, being an increase of \$22,718.00 over the corresponding period in 1946. The surplus earnings and tax contributions for the same period amounted to \$226,583.00 as compared with \$221,902.00 for the same period last year.

There were 26,356 Telephones in service at the end of September which is an increase of 460 over last year. Telephone equipment is still in short supply and as a result there are now approximately 5,000 Applications on the holding files of the Department.

The first delivery of additional Central Office equipment is now on site in the South Exchange and consists of 500 lines of apparatus which is now being connected and will be ready for use by the end of the year. A total of 4,300 lines of additional Central Office switchboard equipment now on order is expected to be ready for service by June 1948. Further orders for another 2,000 lines has been provisionally placed on the Manufacturers' Schedule and should be installed early in 1949.

The underground cable distribution system has been extended by 25,000 feet of underground conduit and 16 cable routes. Approximately 10,000 feet of 600 pair cable have been drawn into the ducts and is now being spliced.

The aerial cable plant has been extended by the installation of 15,000 feet of various sizes of cables.

The new Main Exchange Building is now complete and the commercial offices are open to the public. Available space on the second floor is ready for additional central office equipment, delivery of which has been promised for November by the Manufacturers.

Waterworks Department

The volume of water distributed was 1,376 greater than last year; the cash revenue and expenditure were greater by 4.7% and 10.8% respectively.

Ten miles of new mains have been laid, 1,080 pipe services to houses, and have been installed, and 930 new meters have been set. These are about 20% more than for the same period of 1946.

A small start has been made towards the enlargement of some of the feed-mains of the system and towards other major improvements. A 36 inch pipe is being installed on 104th Street through Queen Elizabeth Park, for connection to existing piping under the river, with a view to eventually improving the volume and pressure of water on the South Side. Preliminary plans are ready, and estimates for piping are out, for a 20 inch feed main to North Edmonton; no work can be done on this job until late in 1948 at best. An elevated steel water tower and tank (250,000 gallons) is on order for the Calder district and a contract has been let for the foundations of the structure; the tank will not be in service until the middle of 1948. Some materials used by this Department are in fair supply but others are almost as hard to get as ever.

The manpower situation as to quantity is better than it was a year ago, and though not as plentiful as desirable, it is probably as good as can be expected for a while yet.

The maintenance of the system as a whole is in better shape than a year ago. There are several blocks of old steel and wooden mains which need replacement. This type of work is being held over where possible, until the demand for new mains subsides.

Parks Department

On January 13th, City Council approved the formation of the City Parks Department. The office staff and Parks Foreman were appointed shortly afterward. New offices on the fourth floor of the Civic Block were occupied in July.

There are approximately 125 miles of improved boulevards in the city. Five crews are kept busy all summer cutting the grass on these boulevards. Their work is so planned that every boulevard is cut once every 7 to 10 days. This costs in the neighborhood of \$20,000 each year.

The older boulevards were planted with poplar and Manitoba maple trees; neither is suitable for boulevards. The roots of both penetrate sewer mains. The maple is subject to insect disease attacks; the poplar more so, heave sidewalks and send up sprouts in lawns and flower beds. Both trees are very short lived, their life span being 30 to 40 years. The new plantings are of green ash and American elm and a search is being made for other suitable species. The older plantings have been spaced 16 feet apart. The trees are so close together that they compete with each other for nutrients, moisture and light. As a result they are weakened and become more susceptible to insect disease attacks and storm damage. Furthermore, the grass under the trees does not thrive because of the lack of moisture and light.

To remedy this situation, a tree removal and replacement programme was instituted this spring in the area from the 11th street to 121 Street, from Jasper Avenue south to the river bank. Two out of every three trees were removed, leaving the remaining trees 40 feet apart. Where there were no trees left, Manitoba maple or other species were planted in the gaps, and when the latter have grown to reasonable size, the remaining poplars and Manitoba maples will be removed.

There have been complaints from some citizens who did not like to see the trees in front of their houses removed. Others have been completely wronged in the programme. When the work has been completed, the improvement will be seen in the form and growth of the trees and color and thickness of the turf. In addition, the cost of pruning will be greatly reduced because there will be fewer trees and fewer dangerous and dead branches on the trees.

At Clarke Stadium two new dressing rooms have been built under the existing grandstands in lieu of old dressing rooms and dressing rooms on the stadium ball park. Tenders were called for on the latter but all were so high that they could not be accepted.

The seventh hole at the Municipal Golf Course was levelled down and seeded, eliminating a number of unnecessary hazards. A total of 165,000 bulbs took advantage of the facilities offered by the three outdoor swimming pools.

Some new nursery stock has been acquired and orders have been placed for more. The nursery is being moved from Breckinridge to the new site on the Cloverdale Place. Construction of two new greenhouses has been started and one greenhouse and the putting shed will be in operation this winter.

Construction of two new greenhouses has been started and one greenhouse and the putting shed will be in operation this winter.

Industrial Development Commission

In September, 1946, the City appointed a full time Industrial Commissioner for the purpose of inducing new industries to come to the City and of encouraging the extension and enlargement of existing business. The greatest difficulty confronting the Commissioner is the securing of satisfactory land and buildings to accommodate the many industries which have indicated a desire to become established in Edmonton. The Commissioner has, however, been instrumental in purchasing 7 out of the 10 warehouses at the American Railroad, all of which have been resold to various private businesses and are being fully used. There is a good chance that two more buildings will be available in the near future, and it will be a simple matter to sell these in the same manner as outlined above. The Commissioner is presently negotiating with a number of business concerns of becoming established on the old Penn Site and there is reason to believe that all trackage in that area will be completely sold before the end of next year.

The discovery of the Leduc Oil Field has resulted in a considerable demand for building sites for the distribution of Oil Well Supplies and the City has so far been able to meet requirements. It is also making arrangements to provide additional trackage for similar purposes in the extreme southern portion of the City.

Labor Asks Equal Representation

OTTAWA, Oct. 23.—(CP)—The Canadian Congress of Labor yesterday called on Prime Minister Mackenzie King for labor representation on the newly-established Canadian Maritime Commission.

The CCL made public last night a letter written the Prime Minister by the Commission's secretary-treasurer, following announcement of the commission's personnel.

The members announced were John V. Cline, Vancouver lawyer; Mr. Anderson, external affairs department lawyer, and Henry J. Rahves, president of Park Steamships Ltd., a Crown company. Mr. Conroy asked for the further appointment of "proper" labor representation.

"It would seem to us to be an obvious conclusion," he wrote, "that in addition to employer and legal representation, because of the provisions of the Shipping Act, the men who build and man the ships have a definite and equal voice on the Commission which will govern the operations of a Canadian Merchant Marine."

REPLACING CRACKED WINDOW PANES
After all broken glass is removed from the sash, old putty is chipped off with a chisel or jack-knife and glazier's putty is removed. Scrape the wood clean and cover it with a coat of linseed oil or paint to prevent it from drawing the oil out of the new putty. Unless this is done putty is dry and crumbly.

Measure carefully for the new glass and have it cut to size. Spread a thin coat of putty evenly around the rebate or groove. Press the glass gently into place so the putty will keep it watertight. Place three or four glazier's putty for each side and drive them in using the edge of a screw driver against them.

When certain that the glass is tight, place pencil size putty rolls around the edge and press them off with a putty knife, leaving firmly but gently. Remove excess putty from around the board. Putty for putty has dried for a day or two. For metal sash use mastic instead of putty.

KENTILE
Asphaltes
for Floors

Your Best Investment!
Because it lasts so long...

Guide to Home Builders

Forty-six small compact homes are illustrated, complete with floor plans, in our new booklet for homebuilders. "Small homes of Originality." Duplicate floor plans and detailed drawings of interior fittings are offered.

The "Tenar"
This floor plan is simple and straightforward and although the completed plan looks wide, the narrow entrance to the front makes it possible for use on an average city or suburban lot. Note the modern window treatment.

A copy of this new book can be had at the office of The Edmonton Bulletin, or will be mailed to you post-paid, for \$1.00 per copy.

REPLACING CRACKED WINDOW PANES

Baptist Missionary Will Speak Here
Miss Anne Munro, K.I.R., who is on furlough from the Canadian Baptist Mission in India, where she has served since 1930, will be the speaker at First Baptist Church Sunday morning and in the evening at Strathcona Baptist.
Her work has been among primitive tribes, the Savakas, in the Eastern Ghats Hills. She was trained to teach the people to write, and has translated parts of the New Testament into Savaka, for the British and Foreign Bible Society. Miss Munro represents the Savakas people, a tribe of about 200,000, in the Orissa Province Legislature.

At Metropolitan
The minister, the Rev. R. M. Thompson, will preach at the Sunday morning service at Metropolitan Church and in the evening at the Metropolitan Church. Dr. J. T. Tucker, of Africa, will be the guest speaker. The service will be in English and in the evening in the English language.

GEMS FROM SWEDENBORG:
"There are three universal laws which govern the spiritual world: the law of love, the law of truth, and the law of power. These laws are the basis of all spiritual life and are the foundation of the Christian religion. The law of love is the basis of all spiritual life and is the foundation of the Christian religion. The law of truth is the basis of all spiritual life and is the foundation of the Christian religion. The law of power is the basis of all spiritual life and is the foundation of the Christian religion."

Let This Free Book Explain
The Ancient Called Him
COSMIC CONSCIOUSNESS
Most men die to release his inner consciousness. Can we experience momentary flashes of the soul—that is, become one with the universe and receive an influx of spirit and understanding?
The shackles of the body—the earthly limitations—can be thrown off and the soul can be united to the Infinite Wisdom for a flash of a second. During this time the individual knowledge, great inspiration, and a new vision of our life's mission are had. Some call this great experience a psychic phenomenon. But the scientific laws of the universe are as certain as the laws of the universe. The soul is the key to the universe. Address: Rev. J. T. Stephens, D.D., Superintendent

HOLINESS FOR YOUTH RALLY

Meetings each night Tuesday through Friday

YMCA Membership At All Time High

WINNIPEG, Oct. 22 (CP)—More than 150 delegates and members of the National Council of the YMCA, gathered here yesterday for the opening sessions of their 23rd annual conference. Dr. Jasper Humphrey of Montreal, president of the council, welcomed the delegates and Dr. S. Hinkling of Toronto, general secretary of the council, reported on the activities of the last year. Mr. Hinkling told the delegates that during the last year an all time high in membership was achieved with 28,245 registered members in 71 associations and 25,686 registered non-members in 50 associations.

"Last year we had 14,780 women and girls, 17 per cent of our membership, while in 1929 we had none reported."

"The association also show a considerable improvement financially and reflect a reasonably sound condition."

Polish Veterans Meet Here Nov. 8

The 1947 convention of the Polish Veterans Association will be held Nov. 8 and 9 in the Polish hall on 96 street.

Delegates from all parts of Alberta will attend to discuss topics relating to the mutual benefit and security of the Polish veteran of the last two wars.

The convention will be highlighted by a banquet to be held Nov. 8.

Dr. Haugman, honorary president, will act as chairman of the convention committee.

A live fox and mink show will be held at the convention on Nov. 10 to Nov. 12 inclusive it was announced today by officials of the Alberta Fur Breeders Association.

The live show will be open Monday morning, Nov. 10 at 10 a.m. when classifying will commence. The show will be officially opened at 2 p.m. by Hon. D. B. McMillan, minister of agriculture.

Officials also announced that a fox and mink pet show will be held at the grounds from Jan. 6 to 8. Classifying and judging of pets will commence at 12:30 p.m. Tuesday, Jan. 6. The show will be officially opened by O. S. Longman, deputy minister of agriculture, at 2 p.m. Wednesday, Jan. 7.

Meet the **EATON JUNIOR COUNCIL** and the **EATON JUNIOR EXECUTIVE**. Here they are, 28 brand new attractive heads, full of countless brand new ideas to make your school year bigger and better than ever!

Representing the Edmonton city senior high schools and the University of Alberta, they'll meet us in weekly conferences right here in the **EATON** Store.

These young persons will tell us all about YOU... what you say... do... wear... sports you like... and what you like best of all... your newest whims... all the big and little things that make teen-age living such fun today!

And after careful listening and wise planning, we'll have just the things that you'll like when you want them.

Jane Emery, a 1946-47 councillor, was chosen as the Canadian Cover Girl for the September issue of the Canadian Home Journal. That was a grand start for our first **JUNIOR COUNCIL**!
